Gives New Life

Strengthens the Nerves.

When the blood is impure the whole nervous system becomes poisoned. It is impossible to throw off that terrible depression; and there is no ambition to work. But there is a way whereby you may again be strong and vigorous.

Mr. Charles Richardson, of 37 Howick Street, Launceston, Tasmania, sends us his photograph and the following letter:

"Once my arms were covered with sores that were worse than boils. They were deep-rooted in the flesh and caused great suffering. My blood was in an awful condition. At another time I had a severe attack of indigestion. I could neither eat, sleep, nor work, and I never expected to recover."

AYER'S Sarsaparilla

cured me from both of these violent attacks. The first time it took all impurities out of my system; and the last time it built me up and gave me new life. Now I am strong, work hard, and sleep well."

Ayer's Pills are a safe and sure cure for all liver troubles. They are purely vegetable.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

OBJECTION TO A CABLE

ARGUMENTS AGAINST LAYING ONE.

Hawaii Might Connect With the Mainland by a Line to the British Cable at Fanning Island.

The Seattle Post-Intelligencer prints the following on the subject of the Pacific cable:

Seattle, Wash., Jan. 21, 1901.
To the Editor: Consul General Bray, at Melbourne, Australia has notified the state department at Washington that the postmaster general of Victoria has accepted the bid for laying the all-British Pacific cable at a cost of very nearly \$10,000,000.

This proposed cable is in no sense a trans-Pacific cable as it runs almost north and south through the Pacific from Vancouver Island, B. C., to New Zealand. The cable in no wise supplies the need of an American-Asiatic cable across the Pacific, as the New Zealand or Australian terminus of this British cable is further from Japan, China and Siberia than its initial point on Vancouver Island, and it will cost more and take longer time to reach Japan or the other Northern Asiatic points than by the existing British and Russian routes.

Fanning Island lies 1,000 miles south of Hawaii. The stretch from Vancouver to Fanning is the longest single cable span ever projected, and this stretch, although but half the distance, will cost three quarters of the whole, as it will require 550 pounds of copper, 100 pounds of gutta serena to the mile, and necessitate a cable steamer of enormous size and equipment.

At one time it was thought that the available supply of gutta serena in the world was not sufficient to provide for this all-British cable, but the big British manufacturers have been accumulating supplies for several years, and can now undertake it, but it will sweep the market bare and leave three American manufacturers who are dreaming of that other absurdity, an all-American cable via Hawaii and Guam, without material out of which to construct it.

This British folly is of interest and profit to the United States in many ways, and it is not our business to complain if British money is squandered for no benefit. It will bring to the Pacific some of the best cable ships and trained cable experts in the world, which may be available for our own American cable projects. It will solve many of the Pacific cable problems. It will directly connect the United States with New Zealand and Australia, and most important of all, the laying of a short and cheap cable of 1,000 miles will connect Hawaii with Fanning Island, and thus put it in cable communication with the United States.

This is of commercial importance to our Hawaiian commerce, and a Hawaiian cable can serve no other purpose whatever.

As is by this time well known to experts, Hawaii has no value as a strategic naval station. It is more remote from any point of importance than any other harbor in the seas. Dutch harbor is nearer Guam and four hundred miles nearer the United States. Dutch harbor is nearer the whole of Asia, and in fact, the shortest line from Hawaii to the nearest Asiatic coast runs through Dutch harbor. Guam has value because it is 3,500 miles nearer the Asiatic coast, and the Philippines. It is as well as Dutch harbor have value, as both are directly on the ocean short-cut from India to any portion of the North American or Nicaraguan canals. San Diego has value, being the nearest of all American stations to Central and South America, including the eastern terminus of the Panama canal (which runs westward from the Atlantic to the Pacific), Pago-pago in the Samoan Islands, is nearest to Cape Horn, to New Zealand and to Australia, and is a naval strategic point of extreme value, but Hawaii is lost in the center of the greatest stretch of uninhabited area on the globe. When the Oregon returned from New York to Manila she went 2,500 miles out of her way to touch at Hawaii.

The American Asiatic cable, whether laid by government or private enterprise, should be in the shallow waters, and be of the short links, easy to lay and maintain, between the shore of the state of Washington and Sitka, Kodiak Island, Dutch harbor, Attu, Siberia, and Japan in ideal order from every point of view, except that of squandering the money of the United States treasury on an expensive and impractical enterprise via the atolls of the Pacific.

HARRINGTON EMERSON.

MRS. CULLOM RECEIVES.
WASHINGTON, January 25.—Mrs. Cullom, assisted by her sister, Miss Fisher, had another of the pleasant receptions of the day. Miss Kildgely, the school girl granddaughter of Senator and Mrs. Cullom, presided at the tea table in the library.

WILL TICKET MASKERS.
Plans Adopted Yesterday for the Mardi Gras Ball.

An important meeting of the managers of the Mardi Gras Ball was held yesterday. It was decided that a little pamphlet containing instructions to the patrons of the event will be issued shortly. The question of avoiding confusion between the maskers and spectators was settled by deciding that the maskers shall enter the building from the Miller street side, go to the dressing rooms and march over the stage and down the flight of stairs onto the dancing floor. Wearers of dominoes are requested so far as is possible, to appear in red, white, green or yellow, although people are not to be required to appear in these colors.

For the accommodation of the members of the press there will be a box. Maskers are to be given tickets upon which they will write their names and the characters they represent, in order that there will be no mistake made in the lists.

The following are authorized to dispose of tickets: Nicholas Company, Benson, Smith and Company, Hobson's Drug Store, Hollister's, Bergstrom's, Thrum's, Hawaiian News Company, Brash and Company, Miss Killeen's, Nolte's, Lycurgus' restaurant, Hawaiian Hotel, Hawaiian Annex, Waikiki Inn, Charles Denny, Dr. Clark, M. A. Jones, M. F. Peachy, Mrs. S. M. Damon, Mrs. E. D. Tenney, Mrs. Mary Gunn, Mrs. E. Freeth, Mrs. H. A. Ienbergh, Mrs. Thomas May, Mrs. G. Walker, Miss Maggie Walker, Mrs. H. Cooper, Mrs. W. C. Wilder, Mrs. Annis M. Turner, Miss Kellor, Mrs. Mary Wildfield, Mrs. M. M. Estes, Mrs. Harold Mott-Smith, Mrs. Mannie Phillips, Mrs. Walter Hoffmann, Mrs. M. Wichman, Mrs. J. M. Dowsett, Mrs. James G. Spencer, Mrs. M. M. Scott, Mrs. J. J. McDonald, Mrs. Reis, Miss Anna Paris, Miss Bacon, Mrs. Slaker,

Mrs. James Campbell, Mrs. F. M. Hatch, Mrs. Pond, Mrs. S. M. Parker, Mrs. E. W. Jordan, Mrs. J. S. Walker, Mrs. A. M. Brown, Miss J. S. Kaufman, Mrs. F. M. Swanzy, Mrs. J. K. Brown, Mrs. Angus, Mrs. T. Hain, Walker, Mrs. W. F. Allen, Mrs. M. L. Walker, Mrs. A. T. Atkinson.
Checks or money sent to Mrs. A. G. Hayes, Jr.

Another meeting will be held tomorrow afternoon at 3:45 o'clock.

CRUSADE AGAINST PILLOWS.

People Should Sleep in Entirely Horizontal Position.

Is it better to sleep with the head high or low? This is a question which manufacturers of bed clothes apparently answered long ago by announcing authoritatively that no one in his senses would think of lying down to sleep unless he had a pillow and a bolster under his head. Now, however, a French scientist comes forward and says that any one who rests his head on a pillow and bolster while he is sleeping is slowly but surely committing suicide. This scientist is M. A. Feret, and it was at the recent meeting of the French Society of Hygiene that he expressed his heterodox views on the subject.

According to M. Feret, the only natural position for man while sleeping is the horizontal one, and the first thing to do in order to accustom one's self to it is to remove the bolster. Within a few months, he says, one will be able to sleep much more calmly than ever before, and moreover the general health will be much improved.

"This statement," he insists, "is not made lightly but is the result of long experience."

The next step, he says, is to remove the pillow for not until then will the circulation of the blood be as free as it should be. In further explanation he says that the pillow and bolster keep the head and neck at an abnormal angle, and that consequently the sleeper's entire body remains during the night in an uncomfortable position and one which impedes the free course of the blood through the vessels and organs. The only remedy, he maintains it to adopt a horizontal position, since by it alone is absolute rest guaranteed, and this rest is due to the fact that in such a position the ligaments of the neck are not strained or distorted, the lungs easily perform their proper work and the heart beats regularly.—New York Herald.

TO HER CREDIT.

It is to the credit of Delaware that it does not talk of abolishing the whipping post and substituting hanging in its stead.—Chicago Record.

THEIR CLAIMS SET AT REST.

The claim of other cough medicines to be as good as Chamberlain's are effectually set at rest in the following testimonial of Mr. C. D. Glass, an employee of Bartlett & Dennis Co., Gardiner, Me. He says: "I had kept adding to a cold and cough in the winter of 1897, trying every cough medicine I heard of without permanent help, until one day I was in the drug store of Mr. Houlahan and he advised me to try Chamberlain's Cough Remedy and offered to pay back my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy, and have since always turned to it when I get a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines." For sale by all dealers, Benson, Smith & Company, general agents, Hawaiian Islands.

PACIFIC HEIGHTS

**Magnificent View,
Refreshing Breezes,
Easy of Access,
An Unsurpassed Residence Site**

These lots are on the Pauoa side of Pacific Heights. They face on Pauoa Road, now being widened and macadamized, and adjoin the Pacific Heights Electric Railway.

A Chance for Investors:

Any one with money to invest looking for something that will bring good returns on sums invested, has here a fine opportunity. Houses built on these lots will find ready rental at strong rates by good tenants.

Attractions Offered in this Site to Homeseekers:

LOCATION. They are located on high ground at an elevation of from 200 to 500 feet, affording unsurpassed scenic and marine views.
ELECTRIC RAILWAY AND LIGHTING. The Electric Railway makes access most easy, and power for lights may be had at most reasonable rates.
WATER. Water will be supplied at the rate of \$15 per year for each lot, from our Pacific Heights Water System. This is less than city rates.
SPECIAL INDUCEMENTS TO BUILDERS. To all who will build in the erection of houses within 60 days, we will make special inducements in the matter of transportation of building material over our railway.
LOW PRICES, GOOD TERMS. Prices of lots range from \$400 to \$750 each, according to size and location. One-fourth cash only is asked. Balance in installments at terms to suit purchasers.
HEALTHFUL AND COOL. The air is always cool and bracing. We can recommend this property as being especially desirable and attractive to persons seeking a choice location for a home at a moderate cost.
